### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Moden (US 2003/0062629 A1).

With respect to claims 1 and 4 Moden discloses a process for providing electrical connection, comprising:

providing a semiconductor die receiving member that is configured to receive a semiconductor die which can be mounted either through flip-chip mounting or wirebonding, the die receiving member comprising:

a plurality of first contact sites configured to lie underneath the semiconductor die when the semiconductor die is proximate the die receiving member; and

a plurality of second contact sites configured to lie adjacent the semiconductor die when the semiconductor die is proximate the die receiving member, each first contact site of the plurality of first contact sites being in electrical connection with an adjacent second contact site of the plurality of second contact sites;

Art Unit: 2825

providing the semiconductor die, wherein the semiconductor die includes a first face, an opposite second face, and a plurality of bond pads on the first face configured for flip-chip mounting or wirebonding; and

mounting the semiconductor die onto the semiconductor die receiving member in one of:

flip chip mounting, wherein the flip-chip mounting comprises:

disposing the first face proximate the die receiving member; and

electrically connecting each of the plurality of bond pads with a

corresponding first contact site of the plurality of first contact sites; and

wirebonding, wherein the wirebonding comprises:

disposing the second face proximate the die receiving member; and

electrically connecting each of the plurality of bond pads with a

corresponding second contact site of the plurality of second contact sites.

### ***Response to Arguments***

Applicant's arguments have been considered but are not persuasive.

Claims 1-14 have been rejected under 35 U.S.C. § **102(e)** as being unpatentable over U.S. Publication No. US 2003/0062629 A1 to Moden (Application No. 10/302,594) for the reasons set forth on pages 2-3 of the Office Action.

Pursuant to 35 U.S.C. § **102(e)**, Moden does qualify as a reference to the present Application.

### ***Conclusion***

*Notice of Finality*

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1. 136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1. 136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
